

# New York Stock Market

New York, April 14.—Demand for stocks to-day was great enough to obtain offerings at concessions and prevent a substantial break in the market, but there was no aggressive buying and trading lagged. When the market opened at noon—the opening having been delayed two hours on account of the funeral of J. P. Morgan—price changes were limited to 1/16.

A heavy tone developed in the early transactions, despite tentative efforts to bid up some of the leaders, and quotations gradually shied off as the day advanced. Pressure was most effective against Reading, Lehigh Valley and Chesapeake and Ohio, all of which were forced down a point or more, and a few of the newer industrial stocks also showed some weakness. The bulk of the standard stocks, however, were not greatly affected, and sustained only fractional losses.

The petroleum stocks were especially weak, California common and preferred and Mexican falling 2 points or more, to new low figures. Rumely also touched a new low price, dropping a point to \$1. Discretionary by banks against certain industrial stocks, as colonists said to be partly responsible for weakness in this quarter of the list.

The cables reported that European markets were more cheerful, and Americans advanced in London before the opening here, but little business was done here for foreign account, perhaps on account of the lateness of the opening. There was more buying of Canadian Pacific for Germany, which made it strong in contrast with the general list.

The bond market was heavy, with further selling of the old established issues, owing to the readjustment made necessary by the issuance of new issues at high interest.

Total sales, par value, \$1,386,000. Panama 3s. coupon, advanced 1/4 on call.

New York, April 14.—Money on call steady, 3%—closing rate 3%—closing bid, 3; offered, 3%. Time loans steady, sixty and ninety days, 3%—6%—six months, 4%—6%. Prime mercantile, 5%—6%. Sterling exchange steady, with actual business in bankers' bills at \$4.53 for sixty-day bills and at \$4.85 for demand. Commercial bills, 3%—4%. Bar silver, 50%. Mexican dollars, 4%. Government bonds firm. Railroad bonds heavy.

## RICHMOND STOCK MARKET.
